GitHub : <https://github.com/kajalmahto>

PROFESSIONAL SUMMARY :

Junior DevOps Engineer with 1 year of hands-on experience in designing, deploying, and managing AWS cloud infrastructure using Terraform, AWS CDK, and AWS CloudFormation. Experienced in building CI/CD pipelines with GitHub Actions, deploying scalable cloud-native applications, and implementing secure, highly available, and production-ready infrastructure. Proficient in Linux, Docker, Kubernetes, Jenkins, AWS services, and DevOps best practices, with a strong passion for cloud automation and infrastructure engineering.

TECHNICAL SKILLS:

- **Cloud Technologies :**
Amazon Web Services (AWS): EC2, VPC, IAM, S3, Route 53, Application Load Balancer (ALB), Auto Scaling Groups (ASG), ECR, ECS, EKS, RDS, CloudWatch, SNS, EventBridge, Secrets Manager, Lambda
- **Infrastructure as Code (IaC) :**
Terraform, AWS CloudFormation, AWS CDK
- **CI/CD & DevOps Tools :**
GitHub Actions, Jenkins
- **Containerization & Orchestration :**
Docker, Kubernetes
- **Operating Systems :**
Linux
- **Scripting :**
Shell Scripting
- **Version Control :**
Git, GitHub
- **Databases :**
MySQL, PostgreSQL
- **DevOps Practices :**
Infrastructure Automation, CI/CD, Auto Scaling, High Availability, Self-Healing, Secure Infrastructure Deployment

PROFESSIONAL EXPERIENCE :

Junior DevOps Engineer | Softqube Technologies

(Jan 2026 – Present)

Client Projects : EDTV (AWS CDK), Quantum (AWS CloudFormation), MailPilot, TeeMetrics, AVSAR

- Provisioned and managed AWS infrastructure using Terraform, AWS CDK, and AWS CloudFormation.
- Developed GitHub Actions CI/CD pipelines for automated build, infrastructure provisioning, and application deployments.
- Implemented Auto Scaling, Load Balancing, Self-Healing, and High Availability for production workloads.
- Configured AWS networking components, including VPC, Public & Private Subnets, Route Tables, Internet Gateway, NAT Gateway, ALB, and Security Groups.
- Implemented secure access management using IAM roles, policies, and least-privilege principles.
- Managed container images with Amazon ECR and integrated deployment workflows with CI/CD pipelines.
- Automated cloud infrastructure and deployment processes using Infrastructure as Code (IaC).
- Collaborated with cross-functional teams to troubleshoot deployment issues and ensure reliable production releases.

DevOps Trainee | TechAnek Technologies

(June 2025 – December 2025)

- Gained hands-on experience in AWS, Linux, Docker, Kubernetes, Jenkins, Terraform, and Shell Scripting through real-world DevOps implementations.
- Provisioned and managed AWS infrastructure using Terraform and Infrastructure as Code (IaC).
- Developed Jenkins CI/CD pipelines for automated build and deployment workflows.
- Deployed containerized applications using Docker and Amazon EKS (Kubernetes).
- Configured AWS monitoring and alerting using CloudWatch, SNS, and EventBridge.
- Automated Amazon EKS cluster discovery across multiple AWS Regions using Jenkins.
- Configured Kubernetes Cluster Autoscaler and scheduled maintenance using CronJobs.
- Implemented an AWS Glue ETL workflow to migrate data from Amazon DocumentDB to Amazon RDS.

EDUCATION :

- Bachelor of Computer Application(BCA) | Government BCA College, Gujarat University | CGPA: 7.58 | (May2024)
- Class 12th(GSEB) | Rashtra Bharti Hindi High Secondary School | 80% | (May-2021)
- Class 10th(GSEB) | Rashtra Bharti Hindi High School | 75.67% | (April-2019)
